

Customer FAQ — Movie Ticket Booking

How do I book a ticket?

Enter customer details, select the movie, theatre, show date and time, enter the number of tickets, and submit the booking request.

How is availability checked?

The system compares available seats with the requested number of tickets.

How is the booking cost calculated?

Total Cost = Number of Tickets × Ticket Price.

Can I cancel?

Yes. During the confirmation step, the customer can select Cancel. The booking status becomes Cancelled.

What happens after confirmation?

The system processes the booking, allocates seats, updates availability, generates ticket information and sends a booking notification.

What if there are not enough seats?

The booking cannot continue when the requested number of tickets is greater than the available seats.

How long should a booking request take?

The project requirements give an example SLA of 30 minutes for processing a booking request.

Where is my booking routed?

The booking request can be routed automatically according to show type, such as Regular, VIP or Special.
